Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-41 are rejected under 35 U.S.C. 102(e) as being anticipated by Patterson'230.

The applied Patterson'230 discloses all elements of the claimed invention. The examiner points out that construction products include wood. See Abstract, column 1, lines 20-25, column 2, lines 6-17, column 3, lines 15-55, column 4, lines 24-60, column 7, lines 20-30, column 7 bottom to column 8, lines 1-25, column 9, lines 10-60, column 10, lines 35-50, column 11, lines 1-23, column 13, lines 15-25, column 14, lines 1-35, column 15, lines 10-25 and 50-55.

The amendments and remarks filed by applicants on June, 2005 have been fully considered. The claims, however, remain unpatentable in view of the prior art of record.

Applicants have argued that the prior art reference does not teach the claimed organic filler such as saw dust or wood flour and that the prior art does not teach that the layer is foamed.

The examiner respectfully disagrees. The Patterson'230 in column 3, lines 35-40 clearly teaches that cellulosic material is part of the layer. In column 7, lines 20-25 the Patterson'230 teaches that saw dust, wood flour etc are included in the composition of the outside layer. Also, in column 9, lines 28-30 the Patterson'230 teaches that the layers can be foamed. Finally, coextruded layers are disclosed in column 15, lines 10-25.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
